

## TECHNICAL DATA SHEET

# DYNAMAX VALVE & INJECTOR CLEANER

Date issued: 04.05.2016

### 1. Description

DYNAMAX VALVE & INJECTOR CLEANER – ensures effective cleaning of valves, injector nozzles and the inlet area without dismantling. Removes operationally caused contamination in the entire petrol injection system. Only a clean fuel system guarantees clean and powerful combustion and efficient engine performance!

### Application:

Add every 6 months to the fuel tank before filling up. Recommended for all petrol engines. Especially in case of cold start problems or bad exhaust values. Treats 60 L of petrol. For larger tank volumes add 0,5% of the filling content. Product works during operation.

Attention: Cleaning fluid – not a fuel substitute!

### Benefits:

Easy application without extra effort. Improves the engine performance and provides a powerful and stable combustion process. Reduces the fuel consumption and optimizes the exhaust gas emission values. Considerably prolongs the life span of the engine and ensures smooth engine running.

**Application field:** all petrol engines

**Consumption:** 300 ml for 60 l petrol // resp. 0,5% of the filling content

**Application interval:** every 6 months

### 2. Technical parameters

DYNAMAX VALVE & INJECTOR CLEANER must comply with the following specifications:

<b>Physical state</b>	liquid
<b>Colour</b>	pale yellow
<b>Odour</b>	organic solvents
<b>Relative density [g.cm<sup>-3</sup>]</b>	0,800
<b>Boiling Point [°C]</b>	130 - 220
<b>Flash Point [°C]</b>	32

Specification variations in these characteristics may occur. Further informations to be available by SDS.
