

TECHNICAL DATA SHEET

DYNAMAX LTA 2M

Date issued: 31.08.2023

1. Product description:

DYNAMAX LTA 2M grease is a high-quality multipurpose lithium grease with excellent properties under extreme pressure and against wear, made on the basis of mineral oil with a high viscosity index. It contains solid anti-friction additives MOS_2 . Water resistant. High-performance multipurpose plastic grease DYNAMAX LTA 2M is intended for rolling bearings, sliding bearings and sliding surfaces.

The recommended operating temperature is from -40°C to $+120^{\circ}\text{C}$.

Specification:

DIN 51502 / 51825

2. Technical parameters:

Consistency NLGI	2
Base oil viscosity at 40°C [cSt]	180
Penetration at 25°C , 60 cycles of 0.1 mm	265 - 295
Dropping point [$^{\circ}\text{C}$], min.	195
Oiling ($100^{\circ}\text{C}/24\text{h}$), [%]	12
Appearance	black, homogeneous

Specification variations in these characteristics may occur. Further informations to be available by SDS.
