DYNAMAX® 

> MOTOR OILS AND GREASES FOR 4-STROKE ENGINES OF GARDEN EQUIPMENT

DYNAMAX has created a series of oils that are used for the maintenance and trouble-free operation of garden equipment simple and accessible to everyone. Engine oil for four-stroke or two-stroke engines for garden machines, adhesive oil for chainsaws against jamming and damage and, finally, motor oil suitable for motorcycles, boat engines and snowmobiles.

DYNAMAX M4T SUPER 30

Petroleum oil produced by modern technology intended for lubrication of four-stroke petrol and diesel engines of garden equipment. Also suitable for engines with a catalytic converter. Has very good resistance to oxidation, protects against corrosion, prevents the formation of deposits.

ART. NR.	PACKAGING
500712	500ML
500713	1L
503250	60L

VISCOSITY GRADE: SAE 30
PERFORMANCE PROFILE: API SJ/CF

DYNAMAX M4T SUPER 5W-40

Year-round synthetic motor oil for 4-stroke petrol and diesel engines of modern garden technology such as snow blowers, mowers, garden tractors, but also for passenger cars, supercharged and non-supercharged. Very effective in engines operating at low temperatures.

ART. NR.	PACKAGING
500704	1L

VISCOSITY GRADE: SAE 5W-40
PERFORMANCE PROFILE: API SM/CF; ACEA A3/B4

DYNAMAX M4T SUPER 10W-30

High quality petroleum oil produced by modern technology, containing high-content ingredients. Forms a permanent lubricating film resistant to mechanical load even at high temperatures. Designed for four-stroke engines of modern garden machinery. Also suitable for petrol engines with and without a catalyst.

VISCOSITY GRADE: SAE 10W-30
PERFORMANCE PROFILE: API SG/CD

ART. NR.	PACKAGING
501840	1L
502400	60L
502500	209L

DYNAMAX M4T SUPER 5W-30

Synthetic motor oil made for garden and agricultural machines. Designed for year-round use in mowers, tractors, cultivators, emergency generators, sweepers and high-pressure cleaners, winter cutters equipped with gasoline or diesel 4-stroke engines, air or water cooled, equipped with or without turbo.

VISCOSITY GRADE: SAE 5W-30
PERFORMANCE PROFILE: API SN/CF

ART. NR.	PACKAGING
503302	1L

DYNAMAX LTA 2M

High quality multipurpose grease with excellent extreme pressure and antiwear properties, produced on the basis of mineral oil with a high viscosity index and using a lithium thickener. Contains solid anti-friction additives. Developed for rolling and sliding bearings, hinges and sliding surfaces, which are widely used in industrial and transport equipment.

PERFORMANCE PROFILE: DIN 51502/51825
SPECIFICATIONS: NLGI 2

ART. NR.	PACKAGING
635790	100ML

DYNAMAX LTA 2EP

Multifunctional lubricant made on the basis of mineral oil using lithium soap. Suitable for use in rotary mowers, chainsaws and brush cutters. Developed for long-term operation in units and bearings exposed to extreme impacts such as high temperatures and speeds. Characterized by particularly high antioxidant properties.

PERFORMANCE PROFILE: DIN 51502/51825
SPECIFICATIONS: NLGI 2

HYDRAULIC SYSTEMS

MAXIMUM ENDURANCE

> FOR THE RELIABLE OPERATION OF HYDRAULIC MECHANISMS

Agricultural machinery and equipment require high-quality engine and hydraulic oils that will provide support for the expended power and long durability of the engine and the entire mechanism. DYNAMAX agricultural machinery oils are composed of carefully selected components and represent the answer to the question of how to choose a suitable engine or hydraulic oil for a tractor, combine harvester or other agricultural machine.

DYNAMAX PSF SYNTH

Green synthetic hydraulic oil developed for highly stressed power steering systems, centralized hydraulic systems and shock absorbers which can reach permanent oil temperatures up to approximately 140 °C. The unique additive package ensures optimal temperature stability, high oxidation stability,

DYNAMAX OHHM 22

Designed for hydraulic wood splitters and other hydraulic mechanisms working all year round in unprotected conditions, even at very low temperatures. Hydrotreated petroleum oil refined with additives to improve oxidative stability, anti-corrosion and anti-abrasion properties. Can be used all year round and is compatible with most hydraulic oils.

VISCOSITY GRADE: ISO VG 22
PERFORMANCE PROFILE: HM (ISO-L-HM); HLP (DIN 51 524/2)
SPECIFICATIONS: AFNOR NF E 48-603 (HM); DENISON HF-0/HF-2; SPERRY VICKERS I-286-S; AFNOR NF E 48-691 (WET), AFNOR NFE 48-690 (DRY)

ENGINE COOLING

MAINTAINING CORRECT TEMPERATURE

> COOLANTS FOR 4-STROKE ENGINES OF GARDEN EQUIPMENT

DYNAMAX coolants guarantee year-round protection of the cooling system of cars or motorcycles. The individual components of the cooling system can therefore withstand frost and high temperatures without any problems. Answers to the questions of how to choose a coolant or which antifreeze is the best are solved in a second thanks to DYNAMAX coolants.

DYNAMAX COOL 11

Cooling liquid based on monoethylene glycol and anti-corrosion additives. Suitable for cooling systems of internal combustion engines made of light alloys. Does not contain nitrites, amines and phosphates.

APPROVAL: VW 774 C; ASTM D 3306

> RELIABLE BATTERIES FOR GARDEN TECHNOLOGY

DYNAMAX batteries, due to their structural composition, represent exactly what every motorist is looking for in a truck, passenger car or garden tractor. A reliable battery, that ensures smooth operation and does not fail in unexpected moments. DYNAMAX batteries are characterized by high quality, which is reflected in trouble-free daily use even in adverse conditions.

> QUALITY ADDITIVES FOR FUELS OR OIL SYSTEMS

Additives for diesel and gasoline will ensure smooth running of the engine, provide the necessary protection to all system elements and, as a bonus, can positively influence the car's starting properties. To protect the oil system, DYNAMAX has developed oil additives with the purpose of improve the quality of the used engine oil. In connection with the universal cleaner, the cleanliness of the oil system can be achieved without any service intervention.

DYNAMAX RADIATOR SYSTEM CLEANER

For use in all water-cooled cooling systems. Contains quick-reacting components for removal of operationally caused contamination. Dissolves and removes scale and improves the performance of valves, thermostats and water pumps.

Highly effective package of active substances that suppress the negative properties of gasoline E10 and E5 fuels with increased content of bio-components. Stabilizes the ethanol and binds water to itself, thus preventing the formation of condensation and corrosion in the fuel system and at the same time prolongs the life of the fuel itself.

ART. NR. PACKAGING
503214 150ML

DILUTION: 150 ML FOR 150 L OF GASOLINE

DYNAMAX GASOLINE SYSTEM CLEAN & PROTECT

Ensures effective cleaning of the entire fuel system from the tank to the combustion chamber. Removes operationally caused contamination and prevents formation of new deposits. Also improves cold starts in winter period.

ART. NR. PACKAGING
502251 300ML

DILUTION: 300 ML FOR 60 L OF GASOLINE

DYNAMAX VALVE & INJECTOR CLEANER

Ensures effective cleaning of valves, injector nozzles and the inlet area without dismantling. Removes operationally caused contamination in the entire petrol injection system.

ART. NR. PACKAGING
502252 300ML

DILUTION: 300 ML FOR 60 L OF GASOLINE

DYNAMAX GASOLINE WINTER ADDITIVE

Used as a prevention of water deposition in the fuel system of the gasoline motor vehicles and subsequent prevention of ice micro-crystals formation. Thanks to its composition, it decreases corrosion and acidity caused by oxidation.

ART. NR. PACKAGING
502832 300ML

DILUTION: 300 ML FOR 60 L OF GASOLINE

DYNAMAX DIESEL SYSTEM CLEAN & PROTECT

Contains a selected combination of active substances for protection against wear. Deposits and residues of carbon, oil and soot are properly dissolved and dispersed. Ensures lasting lubrication of the injection pump and all moving parts. Also suitable for high pressure systems with direct injections and Common rail system.

ART. NR. PACKAGING
502257 300ML

DILUTION: 300 ML FOR 80 L OF DIESEL

DYNAMAX DIESEL BACTERICIDE

Suitable for use in all diesel aggregates and diesel storage tanks. High-performance concentrate with a wide action spectrum for removing and preventive against bacteria, fungi and yeasts in equipment that is out of service for a longer period.

ART. NR. PACKAGING
502259 150ML

DILUTION: 150 ML FOR 150 L OF DIESEL

DYNAMAX ALL-SEASON DIESEL ADDITIVE

Provides improved flow properties of all diesel fuels and is suitable for use all diesel engines with or without DPF. Protects, cleans and lubricates the entire fuel system. Prevents corrosion. Suppresses the negative impact of bio-ingredients. Increasing the cetane number, reduces fuel consumption and improves cold start.

ART. NR. PACKAGING
500070 500ML

DILUTION: 500 ML FOR 500 L OF DIESEL

DYNAMAX HYDRAULIC LIFTER CARE

Additive which reduces wear and tear of hydraulic lifters and eliminates unpleasant „rattling“ noises. Cleans the hydraulic valve lifters, ensures optimal function and improves cold starting characteristics.

ART. NR. PACKAGING
501546 300ML

DILUTION: 300 ML FOR 6 L OF OIL

DYNAMAX ENGINE OIL STOP-LEAK ADDITIVE

Engine oil leak additive with a high-quality ingredient that prevents oil loss due to hardened and worn seals without dismantling the engine. Effectively regenerates, softens hardened and worn seals e.g. shaft seals, valve shaft seals, etc. and thus ensures the tightness of the engine. Regulates the viscosity range of the engine oil and minimizes engine noise.

ART. NR. PACKAGING
503215 300ML

DILUTION: 300 ML FOR 6 L OF OIL

DYNAMAX OIL SYSTEM CLEANER

Effective formula that dissolves varnish and sludge deposits from the oil system which restores compression of piston rings. Cleans valves, reduces engine noise and improves combustion efficiency.

ART. NR. PACKAGING
501547 300ML

DILUTION: 300 ML FOR 6 L OF OIL

> REGULAR MAINTENANCE AND CARE OF GARDEN EQUIPMENT

Take care of flawless cleanliness with minimal effort. Effective cleaners easily handle grease, wax and insect residue and provide long-lasting protection. The effects have been verified by a number of satisfied motorists. High-quality DYNAMAX cosmetics and technical sprays handle the regular maintenance of your garden equipment carefully and playfully. Effective and affordable oils, sprays, waxes, gels and pastes will even take care of clean tires, carburetor or brakes of any car.

DYNAMAX DXT4 MULTISPRAY

High-quality multi-purpose spray with 360° disperser. Effectively lubricates, relieves, prevents corrosion and protects all types of mechanical car parts. Recommended for use in workshops, for house hold use, for garden equipment, car service stations and thanks to its resistance to high temperatures it is also suitable for industrial machinery.

ART. NR. PACKAGING
610112 400ML

UNIVERSAL APPLICATION

DYNAMAX DXC1 BRAKE CLEANER

Brake cleaner with high dissolving properties that cleans and degreases brakes, clutch, transmission and engine parts. Product is non-corrosive, non-conductive and streak-free. Formula dries quickly and leaves no residue.

ART. NR. PACKAGING
606141 500ML

ACTIVE CLEANER

DYNAMAX DXC10 CARBURETTOR CLEANER

High effective cleaner for carburetors. Apply on visible carburetor parts (air passages, adjusting screws, venturi, outside parts), throttle valve, choke and on the positive crank case ventilation valve. High dissolving properties. Leaves no residue. Non-corrosive. Allow engine to cool down and remove air filter.

ART. NR. PACKAGING
611511 400ML

REMOVES ALL DEPOSITS

DYNAMAX DXM3 MOTOR CLEANER

Universal cleaner that removes greasy dirt from car engine, car chassis, tools, floors and other heavily soiled parts and surfaces. Also suitable to refill multipurpose degreasing devices. Usage: Apply undiluted cleaner on to the dirty surface with a brush or spray. Leave for 5-10 minutes and then rinse with water.

ART. NR. PACKAGING
500513 500ML
500520 3,4L

ACTIVE CLEANER

DYNAMAX DXT7 START SPRAY

A tool for starting problems with internal combustion engines. The safe cold starting of all engines is made possible by a special combination of ingredients. Ideal at low temperatures, in damp weather or after longer engine downtimes. The spray protects both the engine and the battery. Fast-acting. Ether-based.

ART. NR. PACKAGING
611510 400ML

HIGH EFFICIENCY

DYNAMAX DXT3 CONTACT SPRAY

Electronic contact cleaner spray that repels moisture. Water repellent. Effective penetration. Usage: Keep and use at room temperature. Shake before use. Apply sufficient amount of the cleaner on the surface and let it dry. Leaves a transparent protective film after evaporation.

ART. NR. PACKAGING
606144 400ML

EXCELLENT CONDUCTIVE PROPERTIES

DYNAMAX DXT14 COPPER SPRAY

Spray with a high copper content to lubricate screw connections which are exposed to very high temperatures. High thermal stability. Prevents wear and sticking. Resistant to chemicals and weather influences. Rust preventive. Shake before use. The specific lubrication properties is achieved after evaporation of the solvent (approximately 1 minute).

ART. NR.	PACKAGING
634911	500ML

FROM -40 °C UP TO 1100 °C

DYNAMAX DXT2 SILICON SPRAY

Silicon spray that lubricates and protects plastic, metal or rubber parts. Prevents creaking, squeaking, corrosion, freezing and drying out. The product is water repellent and has outstanding mechanical and thermal stability. Usage: Shake before use. Optimum lubrication is gained after the evaporation of the solvent.

ART. NR.	PACKAGING
606143	400L

EFFECTIVE LUBRICANT

DYNAMAX MOTOFORCE CHAIN LUBE

High performance lubricant designed and tested in the racing environment of road and off-road motorcycles. High viscous lubricant for chains of motorcycles. Cleans, lubricates, extends life and protects all types of roller chains, gears and cables that operate under exposed conditions. Protects against water and dust.

ART. NR.	PACKAGING
610114	400ML

EXTRA GRIP

DYNAMAX MOTOFORCE CHAIN CLEANER

High effective cleaner for chains and gear wheels. Quickly and easily cleans chains from dirt, dust and oil. Optimum cleansing effect due to the combination of gel structure, the emulsifying properties and the slow evaporation rate. Removes grease and oil. High dissolving properties. The aerosol should have room temperature.

ART. NR.	PACKAGING
611512	400ML

EXCELLENT ANTICORROSIVE EFFECT

DYNAMAX DXG1 GLASS CLEANER

Glass and mirror cleaner that efficiently removes grease, smog, nicotine, insect remains and wax. Thanks to higher amount of alcohol leaves a perfect streak-free shine on the glass. Usage: Apply it evenly on any type of glass or mirror and then wipe it until it's dry with a dry cloth or tissue paper.
